Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group A, claim(s) 25-33, drawn to a method by which multiple servers authenticate to one another and share policies.

Group B, claim(s) 34-41, drawn to a method of registering new users into a network.

Group C, claim(s) 42-49, drawn to a method of authenticating a user to network resources.

The inventions listed as Groups A, B, and C do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

As per claim 25, the invention has the special technical feature of multiple servers authentication themselves to one another and sharing an authentication policy.

Examiner would like to point out that claims 32 and 33 are dependent on canceled claim 24. Examiner assumes this to be a typo and instead insinuates that claims 32 and 33 are dependent from 25.

As per claim 34, the invention has the special technical feature of registering a new user into a LDAP of the server.

As per claim 42, the invention has the special technical feature of authenticating an existing user to access the computing environment. Here the invention uses a policy table to gain knowledge of the server which stored the users identifying information and queries that server for the authentication of the user.

Therefore the grouped claims lack a common special technical feature. As such Applicant is hereby requested to elect the invented to be examined.

A telephone call was made to Jack Friedman on 9/22/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL R. VAUGHAN whose telephone number is (571)270-7316. The examiner can normally be reached on Monday - Thursday, 7:30am - 5:00pm, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim Vu can be reached on 571-272-3859. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
